

Take Charge of Your Health Care: Select Your Primary Care Provider

If you have Medicare, electing your Primary Care Provider (PCP) is a simple step that can lead to:

Better Coordinated Care

With a PCP, your providers can work together, reducing unnecessary or duplicate tests and procedures.

Improved Communication

Keep all your health information in one place for smoother transitions between care providers.

More Involvement in Your Health Decisions

Voluntarily aligning with a PCP gives you more control and a stronger partnership with your provider.

No Limit on Specialist Access

Choosing a PCP doesn't limit your ability to see specialists when needed.
